Lateral Replacement Grant and Loan Program Information:

If sewer lateral replacement is needed, the property owner may qualify for financial assistance through the District's Lateral Replacement Grant or Loan Programs. Information on these programs can be found on our website at rvsd.org. **Applicants that do not meet program requirements will not qualify for funding.**

Public Sewer Extension (PSX) Information:

An additional application will be required for a PSX. These requirements can be found on our website at: <https://www.rvsd.org/170/Sewer-Installations-Extensions>.

Acknowledgement:

I acknowledge and agree to (check all):

- Not start work without an approved District Permit.
- Schedule an inspection with the District prior to backfill.
- Contact the District at least three (3) business days prior to schedule inspections.
- Keep bedding ½ way up pipe w/ bands & pipe joints exposed for District review before backfilling.
- Have all pipes connected and cleanout(s) installed (where applicable).
- Obtain an Encroachment permit if work is required in the Public Right of Way.
- Complete sewer work within a year after permit approval and issuance.

If work was performed prior to obtaining a sewer permit, I must still acknowledge, make any corrections, and check all that apply. I have read and understand the District standards and requirements. I am aware a site meet may be scheduled to discuss any questions prior to performing work. I understand this permit will expire one year after date of issuance and that I must renew the permit if work is not complete within this time.

Applicant shall agree to save, indemnify, and hold harmless Ross Valley Sanitary District against all liabilities, judgments, costs, and expenses which may in any way accrue against the District in consequence of granting this permit. If said improvements ever require repair, removal, and/or relocation as determined by the District, **Applicant** further agrees to perform such work at **Applicant's** expense within a reasonable time upon being notified by the District.

Private Sewer Lateral Inspection Report Form

The following requirements must be met in order to obtain a sewer permit:

1. Contractor shall hold either an A, B, C-36 or C-42 license with the California Contractors State License Board, or National Association of Sewer Service Companies Pipeline Assessment and Certification Program (NASSCO PACP) certification,
2. A video submittal shall visually verify the property address of the lateral being inspected,
3. An audio recording describing all issues with the lateral being inspected along with a footage counter to show the length of pipe MUST be included as part of the video inspection,
4. The lateral(s) must be cleared of significant debris and/or obstructions to provide a clear view,
5. All reasonable efforts must be made to fully inspect the entire lateral(s), including cleaning and removal of obstructions,
6. Any lateral tie in connections need to be inspected and their source identified.

***NOTE: Permit applications that do not include this form or meet the above requirements will be rejected. A DVD or Flash Drive must be submitted with the application. Links to videos will not be accepted. Incomplete video inspections where reasonable efforts to clear the lateral were not made, will be rejected.**

Date of Inspection: _____

Company Name: _____

Technician Name: _____

License Type/Number: _____
